

TOOTH EXTRACTION GUIDE

Everything You Need to Know to Make an Educated Decision on Your Tooth Extraction

Welcome and Congratulations!

Dear Friend,

My name is **Dr. Daniel Gober**, and right off the bat, I want to congratulate you on making the wise decision that'll help change your life! By requesting a copy of our tooth extraction guide.

My ultimate goal is simple: to give patients smiles that they love. Why? Because in my years of practice, I've found that there's almost nothing that can make as big a difference in your health, self-confidence, and overall quality of life as your smile.

Everything else can be working like clockwork – job situation, family, friends and relationships. But if you can't experience the simple act of savoring the foods you love most or if you're embarrassed to smile or even engage in conversation because of your teeth.

Then no matter how great everything else is going, the real joy you desire long for is missing.

I'm here to tell you that you don't have to settle for that kind of life any longer. I know this for a fact because I have seen countless individuals who used to suffer teeth and jaw pain. No longer do they live with pain in their mouth - now they are eating and enjoying the food just like the old days.

I've seen patients walk in my doors seemingly ashamed to smile, full of fear and anxiety and later walk out those same doors glowing with a lovely smile as radiant as the sun.

Thanks to the miracles of modern medicine and technology it's now not only possible, it's far more achievable than you probably have ever imagined.

Whether you're reading this guide for yourself or for a loved one, you're in the right place. We've designed this to provide you with all the necessary information you need to make an educated decision regarding what is best for overall health and happiness.

With all that said, let's get started!

MEET YOUR DOCTOR

Dr. Daniel Gober

What Our Patients Are Saying

★★★★★ 2 months ago

I was very impressed with the technology this office had in place. I had a very smooth efficient experience and the staff was super friendly and positive. I ended up staying later to continue enjoying conversations with both the dentist and the hygienist, which speaks to the level of service provided. I shant be taking my business elsewhere

★★★★★ 3 months ago

For the first time in my life someone knew how to treat me for my headaches. Yes, you heard me correctly headaches! I finally learned that my headaches were coming from me grinding my teeth. So not only are they Fixin the cause of my headaches, but they are improving the looks of my tooth and her more importantly they make me feel loved and welcome each and every time..

★★★★★ 2 months ago

Had a dental emergency today. Called the dentist and he had me seen right way. The doctor worked through his lunch break just to help relieve my pain and fix my broken tooth. I'm so grateful 🙏

★★★★★ a month ago

Friendly staff and doctor. Best dentist experience I've ever had. Highly recommended.

★★★★★ 8 months ago

This was one of the best dentist experiences I have had in the last 30 years. The cleaning so painless while still being very thorough! Everyone at the office is so friendly and efficient! The dentist is beyond intelligent, super friendly making you feel very comfortable and it truly feels like you are in a party like atmosphere that you forget you are in a dentist office!!! Thank you 🙏

TOOTH EXTRACTIONS ARE WAY MORE COMMON THAN YOU MIGHT THINK!

In fact, it is actually the most common dental procedure in the United States.

Top 6 Reasons For Tooth Extraction

1.

TOOTH PAIN

While a toothache is not always severe enough to call for an extraction, severe tooth pain can signal the need for a closer look.

2.

SEVERE TOOTH DECAY

When tooth decay is severe enough, it might be time to discuss your options with a dentist so that you don't become sick with an infection.

3.

TOOTH TRAUMA

When tooth trauma is extensive, an experienced dentist may advise that a tooth extraction might be a better option than attempting to repair the tooth.

4.

OVERCROWDING

Sometimes when overcrowding of the teeth is very severe, it may be prudent to remove one of the teeth to make space in the mouth for the rest of the teeth to grow properly.

5.

IMPACTION

When a tooth cannot erupt properly, that is called an impaction. If an impacted tooth is not removed, it can cause many dental complications.

6.

PERIODONTAL DISEASE

When diseases of the gums become advanced, it is sometimes wise to proactively remove the teeth rather than waiting for them to fall out on their own.

DOES HAVING A TOOTH EXTRACTED SOUND SCARY?

Don't worry, we've been taking care of people for a very long time and there isn't anything you can show us that we probably haven't seen before.

People Just Like You!

Very thorough and in depth check up. Never have I received as much information about my teeth and gums from a dentist and explanations on why certain conditions are there and how to properly treat them. I usually feel like I'm being taking to the cleaners when I go for a visit as the dentist always recommends a number of treatments I "need" but nothing was pushed on me here. My options however were explained for more long term issues which weren't urgent. The doctor also examined my tongue and alerted me to a possible issue (more than likely due to my teeth rubbing against it on one side) that I should get checked by a medical doctor just in case so all in all I am extremely happy with the visit and couldn't recommend them enough.

I am doing Invisalign with Smile Cafe. Dentists in here are exceptional. I am very satisfied with the result and friendly service they are providing. Highly recommend for those who are planning for Invisalign and/or braces!

★★★★★ 3 weeks ago **NEW**

Everyone was very nice and welcoming. All my questions were answered and concerns were put to rest They took the time to walk me through my scans and guide me towards fixing my teeth. Overall, excellent.
